

MARCOS BERNAL

Full-Stack Engineer · React Specialist · AI Engineer in Training

Mar del Plata, Buenos Aires, Argentina marcos.bernal.official.1@gmail.com +54 2235 535852
marcosbernalofficial.github.io/MyPortfolio github.com/MarcosBernalOficial

PROFESSIONAL PROFILE

Full-Stack Developer with 3+ years of experience architecting responsive, scalable web applications. Deep expertise in React, TypeScript, and micro-frontend architecture (Module Federation). Backend-rooted with strong knowledge of Java, Spring Boot, and relational databases — designing RESTful APIs and BFF patterns for seamless system integration. Currently specializing in **AI Engineering** — studying Machine Learning, Deep Learning, NLP, and Computer Vision. Leverages **Claude Code** as a native AI-augmented development tool for intelligent scaffolding and context-aware architecture decisions. Committed to code quality, design systems, and agile delivery.

TECHNICAL SKILLS

Core Technologies	React · TypeScript (3+ yrs) · JavaScript ES6+ · HTML5 · CSS3 · Tailwind CSS
State & Navigation	Redux · Zustand · React Hooks · React Navigation 6+ · React Query
Architecture & Tools	Micro-frontends · Module Federation · Webpack · Monorepos · REST APIs · BFF Pattern
Testing & DevOps	Jest · React Native Testing Library · Unit & E2E Testing · CI/CD · Git · GitLab · GitHub
Backend & Design	Java · Spring Boot · PostgreSQL · Figma · Photoshop · Illustrator · Design Systems · Agile/Scrum
AI Engineering	Machine Learning · Deep Learning · Neural Networks · NLP · Computer Vision · LLM APIs · Prompt Engineering · Claude Code · MCP · RAG

WORK EXPERIENCE

Full-Stack Developer & UX/UI Designer | BunchPay

2025

- Architected a full-stack digital wallet platform supporting secure transactions, fund transfers, and real-time balance tracking.
- Designed and implemented the backend with Java, Spring Boot, and PostgreSQL — including RESTful API design, authentication, and data-layer abstractions.
- Built the frontend with Angular and Tailwind CSS, delivering a responsive and accessible UI across devices.
- Produced end-to-end UX/UI design in Figma, from wireframes to high-fidelity prototypes aligned with fintech design standards.
- Managed the full development lifecycle across database schema, business logic, and UI layers.

Front-end Developer & UX/UI Designer | La Gaviota

Mar 2025 – May 2025

- Designed interactive wireframes and prototypes in Figma following Design System guidelines.
- Built responsive, accessible interfaces with React, TypeScript, JavaScript, HTML5, and CSS3.
- Optimized performance and usability across devices, improving engagement metrics.
- Integrated React Navigation and REST APIs for seamless end-to-end user experiences.

EDUCATION

Higher Technician in Software Development – Full Stack Developer

Expected: Dec 2025

Universidad Tecnológica Nacional – Mar del Plata, Argentina

Diploma in Artificial Intelligence

Currently enrolled

Python for AI · Data Analysis · Machine Learning · Deep Learning · Neural Networks · Computer Vision · Natural Language Processing (NLP)

LANGUAGES

Spanish – C2 (Native) **English** – B1 (Actively improving to B2) **Portuguese** – A2 (Basic)

ADDITIONAL INFORMATION

Available for hybrid and remote work. Strong orientation towards fintech solutions. Familiar with feature flags (Unleash), Bitrise CI/CD, and Monorepo structures. Continuously expanding expertise in React Native 0.77+, Module Federation, Webpack, and Design Systems. Proven delivery of responsive web applications for real clients, combining full-stack engineering with UX/UI design sensibility.
